About the College:- APS group of Institutions was founded by Late Professor N. Ananthachar in 1935, in the form of a small Primary school with only 3 students. Today it has expanded its branches in the form of several Educational institutions like APS College of Arts and Science, APS Engineering College, Polytechnic College, PU College and many schools including in rural areas. Prof. N. Ananthachar worked very hard for more than three decades and it was a success story of adventure and great resilience. A great educationist, a man of vision and a true humanist, late Prof. N. Ananthachar paved the path of education for millions of students.

APS College of Arts And Science is located in the heart of Bengaluru city. The College has completed 69 glorious years of dedicated service and offers B.A, B.Sc., B.C.A and M.A (Economics) courses. The College is affiliated both to the Bengaluru City University and AICTE. It is accredited with B+ Grade in the 3rd cycle by NAAC. The institution is actively engaged in conducting many activities for the benefit of the students, faculty and the society. This has been possible chiefly because of the support of the management, able guidance and motivation of the Principal and the wholehearted involvement of dedicated teaching & non-teaching staff and enthusiastic students.

About Internal Quality Assurance Cell:- The IQAC was started in the year 2004. It plays a significant role for all quality enhancement and assurance initiatives. It initiates, guides and supervises various activities that are necessary to increase the quality of education to achieve overall development of students in the institution.

It acts as a nodal agency for conducting activities including adoption and dissemination of quality education. It thus ensures institutionalization of the best practices.

About the FDP

One week Faculty Development Program (FDP) aims to enhance the academic, research and administrative competencies of teaching and non teaching staff, contributing to institutional excellence. This program will provide insights into innovative teaching methodologies, effective research strategies, and efficient administrative practices, enabling educators to adapt to evolving educational landscapes.

Objectives

- * To equip faculty with advanced teaching pedagogies for enhanced student engagement.
- * To foster a research driven academic culture through effective research methodologies.
- * To enhance administrative efficiency using modern digital tools.
- * To promote interdisciplinary collaboration and knowledge sharing among educators.
- * To integrate technology for improved teaching, research and institutional management.
- * To develop leadership and decision making skills for academic administration.
