Participants,

Feedback of the students

We all had active participation and commitment to the training session of Block chain Technology. We are sure that by participating in the session we have gained useful knowledge and found the session informative and valuable. The e-certificate of completion has been sent by mail. We convey our sincere thanks for very interactive session and will be useful forever to us. Happy learning. Got to know about the scope and career opportunities for block chain technologies, crypto currency and new courses. Thanks for the initiative to make study of blockchain technology pervasive. It's was very good learning experience online on Blockchain technology.

Report - BOSCH Industry Academia Collaboration

An Online Industry Academia Collaboration Coordinator orientation program was conducted by BOSCH India on the four different topics listed below held during 6th December 2021 to 11th March 2022.

Dr. Narsimha Parvatikar, Assistant Professor, Department of Physics, APS College of Arts and Science was selected and deputed to attend the Industry Academia Collaboration Coordinator orientation program.

The Online Orientation program was conducted for four weeks on four topics mentioned below.

1. Skill Entrepreneurship
2. Future Human Competencies
3. Nation Building Attitudes and Behaviors
4. Social Responsibility

During the first week we were trained on different aspects of Skill Entrepreneurship and its goals. Entrepreneurs play a key role in any economy, using the skills and initiative necessary to anticipate needs and bringing good new ideas to market was discussed.

In the **Second week** we were trained on Future Human Competencies. The important aspects discussed are the skills necessary for the growth of an individual and that of an organization.

The thirteen new competencies include six technical skills like Software Engineering (SWE), Artificial Intelligence (AI), Digital Transformation (DT), Cloud computing, etc. and seven cross-functional competencies i.e., Business Modeling, User Experience (UX), Agility, Change Management, etc. A clear pathway was developed to build these competencies across all levels of hierarchy and function was discussed.

In the **Third week** we were trained on Nation Building Attitudes and Behaviors

For success, a positive attitude plays a vital role. When the companies hire people, consider their attitude and behaviors first and after that skills. Key Success issues like developing the positive attitude and behaviors of students and preparing them for the future were discussed.

In the Fourth week we were trained on Corporate Social Responsibility.

Over the past 60 years, Bosch in India has created a space for itself in the society not just as a technology and innovation pioneer, but also as a company that 'cares'. Our corporate social responsibility endeavors, known as 'Bosch Social Engagement', aim to make a difference in the communities in which Bosch operates. As illustrated below, Bosch Social Engagement has three pillars: Bosch Limited CSR, Primavera and Bosch India Foundation.

After each module, online test was conducted. I thank our beloved Principal Madam, Dr. B Jayashree in entrusting me and giving this opportunity to attend this online training program for the benefit of students at large.

Report - BOSCH Industry Academia Collaboration Coordinator
(IACC) Online Orientation Program

An Online Industry Academia Collaboration Coordinator orientation program was conducted by BOSCH India on the four different topics listed below held during 6th December 2021 to 11th March 2022.

1. Skill Entrepreneurship
2. Future Human Competencies
3. Nation Building Attitudes and Behaviors
4. Social Responsibility

A brief documentary about its origin in Germany and all over the globe was delivered Dr. O. P Goel, General Manager, CSR and Head, Bosch Vocational Training, India

The Main theme of their business is

“It is my intention, apart from the alleviation of all kinds of hardship, to promote the moral, physical, and intellectual development of the people.” – Robert Bosch (1935), Founder

The Online orientation program was attended by nearly 30 participants from all over India.

During the first week we were trained on different aspects of Skill Entrepreneurship and its goals. Entrepreneurs play a key role in any economy, using the skills and initiative necessary to anticipate needs and bringing good new ideas to market. Entrepreneurship that proves to be successful in taking on the risks of creating a start-up is rewarded with profits, fame, and continued growth opportunities. The Key issues discussed were required to be successful entrepreneurs are

1. Communication
2. Sales
3. Focus
4. Ability to Learn and
5. Business strategy

The week's training program was concluded by an Online Test

During the **Second week** we were trained on Future Human Competencies. The important aspects discussed are the skills necessary for the growth of an individual and that of an organization.

The thirteen new competencies include six technical skills like Software Engineering (SWE), Artificial Intelligence (AI), Digital Transformation (DT), Cloud computing, etc. and seven cross-

functional competencies i.e., Business Modeling, User Experience (UX), Agility, Change Management, etc. A clear pathway was developed to build these competencies across all levels of hierarchy and function was discussed.

Bosch's EDT Competence Model were

EDT Self-Check Tool: A tool to facilitate learners evaluate their digital competence as per 13 competencies included in EDT Competence Model.

- **Basic and Advanced Programs:** Learning programs to help learner's basic and advanced skills in a variety of digital competencies and also provide measures of learning for each function and competency.
- **Expert Qualification:** Using eUniversities and external learning platforms to help learners build expertise in their competencies, bringing in external perspectives on knowledge.
- **Digital Transformation Information:** To help build awareness and mindsets among learners to prepare for a digital transformation & help them realize the importance of learning and upskilling.
- **Training for Management:** A one-day training setup to trigger digital business modeling in leadership for all senior and middle managers.

All the participants were assigned to choose a sub topic on the thirteen new competencies were asked to present it for 10 minutes duration.

The week's training program was concluded by an Online Test

During the **Third week** we were trained on Nation Building Attitudes and Behaviors

For success, a positive attitude plays a vital role. When the companies hire people, consider their attitude and behaviors first and after that skills. Key Success issues like developing the positive attitude and behaviors of students and preparing them for the future were discussed.

"Educationists should build the capacities, spirit of inquiry, creative, entrepreneurial and moral leadership among students and become their role model."

These words belong to the former President of India APJ Abdul Kalam and still ring true in 2020 where the prosperity of our nation lies in the hands of the young generation. Their potential and contribution to our shared future warrants urgent attention given that the livelihood sector is in crisis. Characterized by a shortage of skilled manpower in the services industry, and coupled with a high migration of unemployed youth into the unorganized sector as well as a lack of qualified vocational trainers, there exists an ever-increasing discrepancy between a company's skill requirements and the capabilities of the workforce were discussed.

The week's training program was concluded by an Online Test

PRINCIPAL
APS College of Arts & Science
N.R. Colony, Bangalore-560 019,

During the Fourth week we were trained on Corporate Social Responsibility.

Social Engagement for a Sustainable Future

Over the past 60 years, Bosch in India has created a space for itself in the society not just as a technology and innovation pioneer, but also as a company that 'cares'. Our corporate social responsibility endeavours, known as 'Bosch Social Engagement', aim to make a difference in the communities in which Bosch operates. As illustrated below, Bosch Social Engagement has three pillars: Bosch Limited CSR, Primavera and Bosch India Foundation.

The following topics were discussed in detail regarding approach to Corporate Social Responsibility

1. **CSR: Embedded in Bosch culture**
2. **Our Approach to CSR**
3. **How do we manage CSR**
4. **Our Guiding Principles**
5. **CSR Committee**
6. **Bosch Vocational Center**

The week's training program was concluded by an Online Test

Nation Building Attitudes and Behaviours for Students

Nearly 20 students recommended by Training and Placement Officer were trained on Nation Building and attitudes. The main theme of the training is, The principles of focus, hardwork, commitment and true patriotism can help fast-track development. It's an attitude thing. Leaving the country to search for greener pastures cannot help.

E-Certificate was sent to the email on 19th April 2022 with Candidate id 28-101-8268.

A Special Talk on Career in Pure Science after Graduation

A Special talk on Career in Pure Science after Graduation was organized on 26-05-2022 in the Seminar Hall. The resource person was Mr. Srikanth Nagesh, Research Scholar, University of Bonn, Germany and graced by Dr. B Jayashree, Principal, and Dr. Narsimha Parvatikar, HOD, Dept. of Physics, APSAS

The program was commenced by invocation song by Kumari Kusuma and Kousalya of II year BSc seeking the blessing of almighty. Welcome speech was rendered by Balraj III year BSc .

Introduction of Resource Person was rendered by Kumari Sumera, II Year BSc

Mr. Srikanth Nagesh resource person started his speech on career in pure science and different organization pertaining to pure science in India and abroad. He spoke on career opportunities in Europe, Australia and Canada and highlighted about different competitive examinations which pure science students can choose in building their future.

He spoke on different Job opportunities available in Government Sectors like HAL, ISRO, TIFR, DRDO, RRI, IISC and IITs. He stressed the importance online certification courses which students can do through NEPTEL and also courses like PYTHON, C, C++ and Machine Learning. He discussed about the jobs based on specific skills by undergoing training at Vocational Training Centers.

He made the students aware about the entrance exams and future scopes of doing MBA and job opportunities in private sector like data analytics, teaching, software development, tech support, space related start ups and others.

He explained students about the importance of LINKEDIN profile and suggested to create an official email id and also demonstrated how to write an effective BIODATA.

He empathized on following points as Mandatory for the Graduate students.

1. Presentations Skills.
2. Research Experience
3. Communication Skills
4. Python Programming and Resume
5. Confidence.

He shared some useful and important links for the benefit of students.

Finally he motivated the students to have a meaningful career in undertaking competitive exams and joining government organizations like DRDO, UGC, and DST etc.

Mr. Srikanth Nagesh, Resource Person was felicitated by Dr. B Jayashree. Prinicpal

Dr. B Jayashree, Principal, thanked Mr. Srikanth Nagesh for guiding and motivating the students in building a successful career.

Around 104 students and 10 teachers participated.

REPORT ON COUNSELLING SESSION GIVEN TO STUDENTS FROM SUMANA COUNSELLING CENTRE.

In view of the pandemic and lockdown counselling session was offered from Sumana Counselling Centre to the students of APS college of Arts & Science from 06.05.2021 which includes I, II, III Years of B.A., B.Sc., & B.C.A. students. The sessions are conducted from Monday to Saturday from 4:00 pm to 5:00 pm on Zoom platform.

The purpose of having counselling was told to the students. Lots of queries related to the covid situation, vaccination, number of increasing and decreasing cases (per day), number of death rates, number of recoveries etc. were putforth by the participants.

They also came up with few tips that was best to their knowledge. One or two students told us that they had become covid positive. They were home quarantined and recovered. These students shared their experiences. This gave a lot of confidence and hope to all the others.

As we were discussing in the session we found a lot of curiosity amongst these students.

A lot of knowledge was given to the participants about how to manage the situation. That is, to follow a healthy diet, maintaining social distance, sipping hot water frequently and doing regular steam inhalation. Clarification on the misconception of vaccination was given to them, and the importance of vaccination was told.

And also they were advised for regular exercise, yoga practice and physical fitness. Above all, they were given sufficient tips on having a stable mind with positive thoughts and the courage to face the pandemic. So that their level of anxiety will not rise due to the continuous information from social media, friends, relatives, etc.

There was good response from students. They were happy and expressed the need for more such sessions.

In the following session students came up with many more quires like information on black fungus, white fungus and yellow fungus. They also had lot of doubts about the pros and consequences of vaccination. As teenagers it is quit natural that they will not be very serious about lockdown, pandemic etc. so students expressed disappointment about staying at home,

online classes and other such restrictions. So sufficient input was given to them about the importance of staying at home at this point of time and how that would help people worldwide beat the virus and bring our life back to normalcy which is the need of present situation as the new normal is disturbing people occupation wise, physically and psychologically. So such information was given to students in order to make them understand the seriousness of the pandemic.

They were few students who were sentimental about social distancing. They too were to understanding seriousness of maintaining social distance. Repeatedly we told students about "SMS" rules. Maintaining hygiene by sanitizing our hands, washing our mask regularly, keeping our surroundings clean and dust free was told to students. We also made them aware that one of the causes for black fungus, white fungus or yellow fungus is lack of hygiene. We made sure that all these precautionary measures told to them is to make them understand that it is possible to be safe from the virus and not to panic about it. Students were also told about the facilities available in case of emergency or need for hospitalization. In order to comfort them and to decrease the anxiety level in them, we also shared some success stories like increasing number of recoveries, increase in the facility availability of drugs etc. we also told them to keep themselves mentally strong by following healthy practices like yoga and few healthy life styles. Towards the end of the session sufficient information and guidelines were given to students about vaccination. We also shared videos that gave information about covid-19 and its prevention. Students expressed to us that all the information given to them help them cope with the pandemic. They were also told to spread awareness to people whom they know like family members, friends and relatives.

The counselling sessions were concluded on 29.05.2021. The students were told that they can contact us for any help and we will be available for them henceforth too. We received good feedback from students in the last sessions, they expressed gratitude and said that they gain confidence to face the present situation.
