Marina George, welcomed the members & read out the minutes of the previous meeting. The agenda for the meeting was presented for discussion.

1. Review of the academic progress

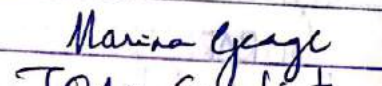

In keeping with the need to increase academic performance of the students, it was suggested that study materials should be given in Kannada also for Arts students. In addition to this, question bank in each subject should be given & students made to write the answers. Each faculty has to go through the answers & guide the students individually. Ideally, this should be done after each unit of the syllabus is completed. Previous years question papers should also be given to the students to be answered as homework.

2. Fulfillment of NAAC Recommendations

In keeping with the decisions to implement the recommendations of the PEER Team, all the members appreciated the efforts of the teaching and non-teaching faculty members in improving the quality of the college.
