About the APS Education Trust

The institution was founded in 1935 by Prof. N. Ananthachar with a visionary outlook. Over the years, APSET has completed 89 years of distinguished academic service and continues to be guided by individuals deeply committed to education and the welfare of society. Renowned for its quality education in Bangalore, APSET upholds a strong legacy, with APS College of Arts and Science further strengthening and carrying forward this noble service. Building upon this esteemed reputation, the institution's teaching faculty strives tirelessly to achieve academic excellence, leaving no stone unturned in nurturing students and upholding high educational standards.

About the College

APS College of Arts & Science, is one of the premier institutions under the APS Educational Trust, committed to providing quality higher education with academic excellence, innovation and social responsibility. The institution offers undergraduate in Arts, Science, Computer science and postgraduate programme in Economics fostering holistic development through teaching, research, extension activities and community engagement.

The institution actively promotes research, interdisciplinary learning and academic collaborations through seminars, conferences, workshops and faculty development programme. With well-equipped laboratories, a modern library, digital learning resources and a vibrant academic atmosphere, APS College of Arts & Science continues to empower students and scholars to contribute meaningfully to society and the advancement of knowledge.

About Internal Quality Assurance Cell (IQAC)

The IQAC was started in the year 2004. It plays a significant role for all quality enhancement and assurance initiatives. It initiates, guides and supervises various activities that are necessary to increase the quality of the education & to support overall development of the students of the institution. It acts as a nodal agency for conducting activities including adoption and dissemination of quality initiatives. It thus ensures institutionalization of the best practices.

About the Library

The Department of Library at APS College of Arts & Science serves as the knowledge hub of the institution by providing comprehensive print and digital information resources to students, faculty members and researchers. The library offers an extensive collection of books, journals, reference materials, newspapers, periodicals, e-resources and access to online databases, supporting teaching, learning and research activities across disciplines.

About the National Conference

Libraries are the foundation of knowledge creation, education, innovation and research. In the era of digital transformation and sustainable development, libraries have evolved beyond traditional information repositories into dynamic centres that facilitate research, digital literacy, knowledge sharing and lifelong learning.

The National Conference on "The Role of Libraries in Sustainable Development and Research" aims to provide a platform for librarians, academicians, researchers, information professionals, scholars and students to exchange ideas, discuss emerging trends and explore innovative practices that strengthen library services for sustainable academic and societal development. The conference seeks to encourage interdisciplinary dialogue, collaborative research and the adoption of modern technologies that support quality education and sustainable development goals.

Conference Core theme

The National Conference on the Role of Libraries in Sustainable Development and Research aims to highlight the evolving significance of libraries as dynamic centers of knowledge, innovation and societal progress. This conference seeks to bring together librarians, academicians, researchers and students to explore how libraries support sustainable development through access to information, promotion of digital literacy and facilitation of interdisciplinary research. It also provides a platform to discuss emerging trends, challenges and best practices in library and information science, fostering collaboration and innovative approaches that align with national and global development agendas.
