

# IISC - OPEN DAY

---

Open day gives an opportunity for the public to get a taste of the research activities that happen within the institute. Interesting demonstrations were organized there to generate interest in different scientific streams. Every year we students from APS College of Arts and Science, attend this event. We all had an opportunity to visit almost all labs and research works going on in departments of IISc. We walked around the campus and explored the science and technology initiatives and activities of the IISc. We engaged in fun experiments and scientific demonstrations that attracted us to understand the power of science so we could contribute to the field in future.

- Mithun, Student of APS college of Arts and science
